

State Parcel Standards

Rhode Island – parcel mapping standards:

<http://www.planning.state.ri.us/gis/RIGISParcStnds.pdf>

Maine – parcel mapping standards:

<http://apollo.ogis.state.me.us/standards>

Vermont – parcel mapping standards:

http://www.vcgi.org/techres/standards/partiii_section_a.pdf

North Carolina – parcel mapping standards:

http://www.nationalcad.org/2005survey/lr_survey05.asp?sStateID=37

Utah – parcel mapping standards:

<http://propertytax.utah.gov/standards/standard08.pdf>

URISA and International Association of Assessors – developed parcel mapping standards:

<http://www.umass.edu/tei/ogia/parcelguide/Sect6.html>

Arkansas – Cadastral mapping standards:

http://www.gis.state.ar.us/Downloads/CAMP/Resources/Standards/Cad_standard_FINAL.pdf

Indiana – Cadastral mapping standards:

<http://www.in.gov/igic/standards/cadastralstandard.html>

The following link is to a power point presentation created by California's GIS Council on the importance of creating parcel mapping standards:

http://gis.ca.gov/council/docs/DLRI_ParcelStates_adkins.pdf

Nebraska – Land records and mapping standards:

http://www.nitc.state.ne.us/standards/data/LRMS_20060127.pdf

For informational purposes only – the following is a link to a brief synopsis of a meeting held in Washington DC during March of 2005, where a task force committee was recommending that Parcel Addressing standards include some of the geo-coding information used by the Census Bureau.
