

WLIA 2010 Exhibitor Showcase

THURSDAY'S SHOWCASES

All showcases will be held in the Briarwood/Ebony Room:

Thursday, February 25, 2010

9:00 am – 9:20 am

ADC will provide an overview of the role it plays in the state land information community and specifically within WLIA. We will also offer examples of the products and services that the company offers that have contributed to more efficient and effective data management by Wisconsin land information professionals.

Thursday, February 25, 2010

9:20 am – 9:40 am

Pro-West & Associates, Inc. has been providing specialized GIS integration services to regional and national clients since its founding in 1987. To showcase PWA's experience, two publically accessible web mapping applications will be demonstrated. The demonstration will highlight simplified tools for public access, application management and modern web mapping techniques.

Thursday, February 25, 2010

9:40 am – 10:00 am and 10:00 am – 10:20 am

MGP's latest projects is an ArcServer application called MapOffice.™

Thursday, February 25, 2010

3:50 pm - 4:10 pm

Learn more about the new GIS Center at **UW-Stevens Point**. The Center focuses primarily on instruction, offering a major, minor, and continuing education venues in GIS. The Center also conducts applied research projects that complement our curriculum. Meet our staff and learn more about the Center's learning pathways.

Thursday, February 25, 2010

4:10 pm – 4:30 pm

Building Outlines Made Easy

Pictometry can create all your buildings outlines from your existing imagery. If you have two sets of imagery, a change detection process will tell you what buildings have been changed. Deliverables include a shapefile of the outlines and geodatabase including building centroids, building lengths and area.

Thursday, February 25, 2010

4:30 pm - 4:50 pm

GeoMOOSE is a robust web mapping application built on open source software to meet all of your web GIS needs. GeoMOOSE is easy to install and configure while providing a full suite of features. At Houston Engineering, we work with you by matching the appropriate technology to your needs.

Friday Showcases on other side:

WLIA 2010 Exhibitor Showcase

FRIDAY'S SHOWCASES

All showcases will be held in the Briarwood/Ebony Room:

Friday, February 26, 2010

8:20 am – 8:40 am

SEH delivers GIS in many formats. We have online mapping systems, desktop GIS systems and field/handheld applications. The most important thing to keep in mind when building or selecting any application is how are you going to use it. Customize your applications or software to your needs.

Friday, February 26, 2010

11:00 am – 11:20 am

Ruekert/Mielke's Technology Services Department covers professional services in Geographic Information Systems (GIS), Supervisory Control and Data Acquisition (SCADA) Systems, and Electrical Systems for municipal facilities. Needs assessments, project designs, programming and software configuration services are provided by our team of Engineers, Analysts, Programmers and Technicians.

Friday, February 26, 2010

11:20 am – 11:40 am

Tom McClintock will talk about recent projects that **UW LICGF** has been involved with and customized training opportunities.
