

Wisconsin Land Information Association 2018 Pre-Conference Workshop

Workshop 2 - The Open GIS Sampler with Boundless

Come by and get a taste of open GIS and see what the Boundless Stack has to offer. Get your wheels spinning on how hybrid architecture could cut costs and improve your workflows. We'll sample Boundless Desktop powered by QGIS, Boundless Server, and a mix of open data, tools, and apps.

Instructors:

Christina Hupy - Boundless

Christina Hupy is the Director of Education Programs at Boundless where her focus is to drive adoption of open source software via the Boundless stack both in academia and commercial spaces. She develops and implements educational outreach activities as well as industry-specific training content, workflows, and best practices. Prior to arriving at Boundless, Christina was an assistant professor for 10 years at the University of Wisconsin Eau Claire. She is originally from Michigan and has a PhD in geography from Michigan State University.

Location:

The workshops will be held on March 6, 2018 at the Osthoff Resort in Elkhart Lake, WI

Time:

Morning workshop 9:30am to 12:30pm

Who Should Attend:

Anyone who is interested in learning more about what open GIS has to offer. We'll touch on how to integrate open tools with your existing proprietary stack. From technician to manager to decision maker, you should be in the know about how open GIS can cut costs, increase efficiencies, and bring your operation to the next level.

Items Needed for Workshop:

A laptop with an internet connection. All materials will be sent to participants ahead of time.

Cost of Workshop

Members

Half Day (3 hours) = \$75

Non-Members

Half Day (3 hours) = \$90
