

Wisconsin Land Information Association 2018 Pre-Conference Workshop

Workshop 3 - Mobile Data Collection and Applications - Using ArcGIS Online, Collector and Other Apps

This workshop will step the user through how to use ArcGIS Online and Collector for Mobile data collection. This will include loading data, setting up a map, creating a web app, using it in Collector (live and disconnected mode), downloading, attachments and tips/tricks along the way. We will be doing an interactive section, where we will have the attendees use their device (tablet or smart phone) to collect data in the building (outside maybe depending on weather).

We will also discuss other applications and how they stack up to ArcGIS Online.

Requirements: Download and install Collector by Esri on the tablet or smart phone. It is preferred that you have an ArcGIS Online account. If you don't have one, you can get a temporary account just go to the Esri website and setup a trial account. If you don't have one the day of we will assist you

Instructors:

Jon Schwichtenberg, GISP - GRAEF-USA

Jon is a WLIA Past President and is very active in the organization, including serving on several committees each year. He has over 27 years of experience in the GIS/Database consulting field. Jon has worked on municipal, county, regional, state and federal projects, all ranging in size from \$1,000 to \$1,000,000. He has worked with mobile GIS with several products, most recently with ArcGIS Online and Collector. He also has worked with customized products. Jon has utilized mobile GIS on very unique projects including the Wisconsin State Capitol Exterior, Universal Studios projects and many other very unique applications/locations.

Location:

The workshops will be held on March 6, 2018 at the Osthoff Resort in Elkhart Lake, WI

Time:

Morning workshop 9:30am to 12:30pm

Who Should Attend:

Anyone interested in how to leverage mobile GIS for any application in the workplace, including inspections, sharing data, leveraging data usage by the public and/or elected officials and many more applications. The implementation of mobile GIS allows the average worker in any function to collect and manage data at an efficient level with little to no experience using GIS.

Items Needed for Workshop:

Requirements: Download and install Collector by Esri on the tablet or smart phone. It is preferred that you have an ArcGIS Online account. If you don't have one, you can get a temporary account just go to the Esri website and setup a trial account. If you don't have one the day of we will assist

Cost of Workshop

Members

Half Day (3 hours) = \$75

Non-Members

Half Day (3 hours) = \$90
