

Wisconsin Land Information Association
2018 Pre-Conference Workshop
**Workshop 7 - Pathways to Success: Collaboration in
Higher Education**

Within the two-year campuses of the UW Colleges, collaboration has long been an essential component of our success in preparing first and second-year college students for the rigors of higher education. Collaborative efforts have been developed between colleagues in the same discipline, across disciplines, and between campuses. The Geography/Geology department of the colleges had just begun an effort to reach out more effectively to geoscience/geospatial departments at UW System four-year institutions.

The restructuring of the University of Wisconsin System change has re-shaped much of our approach, but has not lessened our conviction to promote smoothing student pathways to academic success through the enhancement of collaboration in our instruction, on our campuses, and between institutions. The workshop will consist of various activities and case studies that will illustrate the benefits of collaborative learning and provide practical ways to implement such methods.

Instructors:

Melvin A Johnson - University of Wisconsin-Manitowoc

Dr. Keith West - Associate Professor of Geography, University of Wisconsin-Marquette

Location:

The workshops will be held on March 6, 2018 at the Osthoff Resort in Elkhart Lake, WI

Time:

Afternoon workshop 1:30pm to 4:30pm

Who Should Attend:

Items Needed for Workshop:

Cost of Workshop

Members

Half Day (3 hours) = \$75

Non-Members

Half Day (3 hours) = \$90
