

Wisconsin Land Information Association 2019 Pre-Conference Workshop **Mobile GIS Techniques**

Brief Description:

This workshop will explore some of the many options for Mobile GIS and data collection with mobile devices for integration into your GIS. There will be an overview of both common proprietary and free, open-source options for mobile data collection. Proprietary methods and Esri's ArcGIS for Collector, GeoForms, and Survey123 applications and the Avenza Maps mobile application. Open-source methods discussed will include GvSIG Mobile and EpiCollect. Integration into the desktop GIS QGIS will also be shown for some of the methods. Workshop attendees are highly encouraged to bring a GPS-enabled mobile device (with administrative privileges and wireless capabilities) and personal laptop.

Instructor:

Christine Koeller, GISP - University of Wisconsin-Stevens Point

Location:

The workshops will be held on Wednesday February 20, 2019 at the Red Lion Paper Valley Hotel in Appleton, WI.

Time:

Morning workshop 9:30am to 12:30pm

Who Should Attend:

Folks interested in exploring this free, open-source desktop GIS solution should attend. Prior knowledge of working with GIS/GPS is preferred.

Items Needed for Workshop:

Bring your own laptop/device with administrative privileges and a mobile device. A limited number of mobile devices will be provided by the workshop instructor. Contact ckoeller@uwsp.edu if you would like to reserve a mobile device for your workshop.

Cost:

Members

Half Day (3 hours) = \$75

Non-Members

Half Day (3 hours) = \$90
