

Wisconsin Land Information Association
2019 Pre-Conference Workshop
Insights to ArcGIS

Brief Description:

Insights for ArcGIS offers a data analytics workbench where you can explore spatial and non-spatial data, answer questions you didn't know to ask, and quickly deliver powerful results. In this workshop you will learn about the capabilities of Insights for ArcGIS, including the latest 3.0 release. You will see demonstrations and scenarios of use and take a self-paced lesson to experience Insights for ArcGIS. You will have the opportunity to work with your own data or provided sample data while Esri staff are available to take questions. All participants will receive complimentary access to the "Insights for ArcGIS Hands-On Workshop" ArcGIS Online Organization and Insights for ArcGIS during the workshop.
