

# Colligō GIS

## Featured Works/Projects

Colligo GIS continually provides a variety of professional GIS services to municipalities, government agencies and commercial industrial clients and our staff has extensive experience with GIS, CAD and GPS platforms that include ESRI, AutoCAD Civil 3D, AutoCAD Map, Bentley MicroStation and Trimble.

We provide GIS services and have created and implemented many successful Geographic Information Systems that include:

- E911 data maintenance for the Upper Peninsula of Michigan and part of northern lower Michigan. Address points, MSAG street centerline and boundary information is maintained on an individual county by county basis. A weekly ESRI geoprocess combines each individual dataset into one overall, standardized, dataset which is then uploaded to the U.P. 911 Authority who then incorporates it into participating Computer Aided Dispatch systems. Individual counties also, through the use of Colligo GIS Desktop and Mobile, have the ability to view and maintain their E911 data internally through a centralized database.
- Parcel datasets for numerous counties, cities and townships. These datasets are maintained either by Colligo GIS staff or internally by client staff through our enhanced parcel mapping tool.
- Utility data maintenance and asset management. Water distribution, sanitary sewer, storm sewer, electrical distribution and other critical assets are efficiently maintained in real-time through the use of the Colligo GIS Desktop and Mobile platform.

## Colligo GIS clients include

Alger County, Michigan  
Alpena County, Michigan  
Baraga County, Michigan  
Baileys Harbor, Wisconsin  
Breitung Township, Michigan  
Chippewa County, Michigan  
Crawford County, Michigan  
Dickinson County, Michigan  
City of Iron Mountain, Michigan  
City of Ironwood, Michigan  
City of Kingsford, Michigan  
City of Manistique, Michigan  
City of Munising, Michigan  
City of Norway, Michigan  
Florence County, Wisconsin

Florence Utilities  
Forest County Potawatomi Community  
Gogebic County, Michigan  
Iron County, Michigan  
Kalkaska County, Michigan  
Keweenaw County, Michigan  
Luce County, Michigan  
Mackinac County, Michigan  
Marquette Board of Light and Power  
Menominee County, Michigan  
Norway Township, Michigan  
Ontonagon County, Michigan  
Peninsula Fiber Network  
Sagola Township, Michigan  
Upper Peninsula 911 Authority
